

Briefings - 1

A Briefing is a collection of Dashboards, Reports, Initiatives and Scorecard elements that have been combined into a single Briefing document that can be displayed as an on-line presentation.

Together with Scorecards, Dashboards and Reports, **Briefing** can be added into an Organisation. First Click on the Briefcase icon and select an Organisation into which you want to add a **Briefing**.

If this is the first Briefing in the Organisation selected, click on the blue **Create Briefing** button and miss the next step

If this is not the first Briefing in the Organisation selected, then click on **Edit** at the bottom of the menu list.

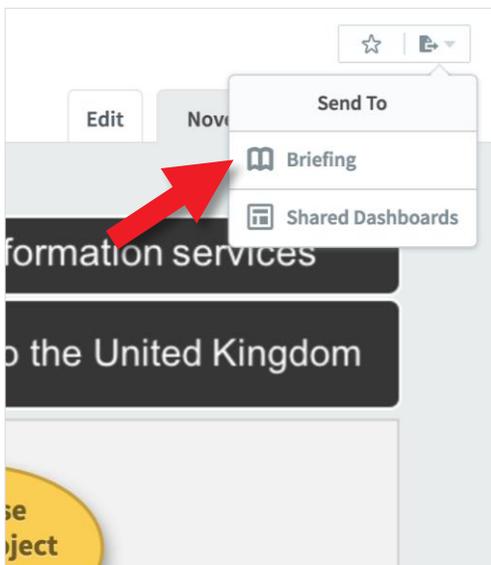

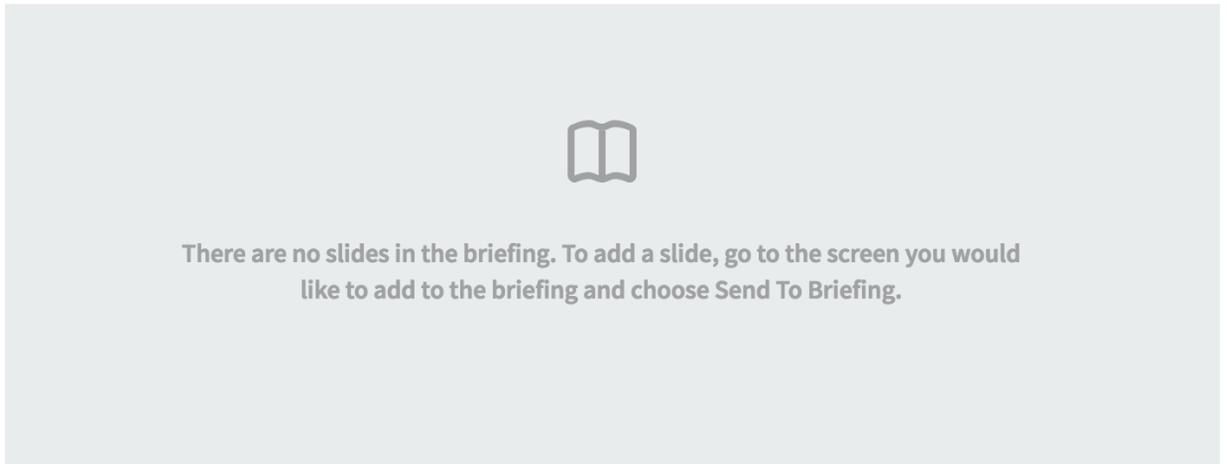

At the top of the menu list click on the **New Briefing** button

The **Create Briefing** dialogue will appear and you will be asked to give the Briefing a name. Enter the name and click **Create**.
